NOTES

- Items marked with * can be provided on request, for free or at an additional cost. Tell us which equipment you need at least one month before the trip.
- You are of course welcome to bring your own ski set on this trip. The skis must, however, be mountain / expedition skis (back-country skis) or touring skis. Racing skis or other narrow and/or short skis will not do the job. The skis are vital on this trip, and anything other than mountain / expedition skis or touring skis is not considered safe to use.
- Turgleder can provide a modern expedition ski package: modern lightweight expedition skis (Åsnes Amundsen or Nansen) and poles (Åsnes Horgi / Vidda), skins and boots (Alfa Polar A/P/S or Alfa Quest A/P/S).
- Equipment that you do not need on the expedition can be stored in Longyearbyen.
