Sled Dog Training Visit

Summer and autumn · 1–2 hours · Join a training session with the sled dogs at the lodge: harnessing, the run by the river, feeding.

One to two hours in the working life of the kennel. Nothing special is needed — dress for the weather of the day, in clothes that can take dog paws and mud, with boots that can get wet. In autumn, when the dogs train with the four-wheeler, add a warm layer: the mornings are cold.
